social transformation...

We Care
IPF Micro Finance Project

IPF WeCare was initiated with a mission to accomplish women empowerment and to save poorest of the poor in slums from the clutches of loan sharks who charge heavy interest which makes it extremely difficult to get out of the debt trap in an **interest-free manner**.

We Care
IPF Micro Finance Project

Realising that in slums where pure water, 3 square meals are luxury and many gents under the influence of intoxicants, the responsibility of family falls on the shoulders' of women, we lend money to women to run their business like bangle selling, tailoring, etc.. We have adopted Nobel price winning "Group lending" concept where liability of repayment of loan lies on 5-member self-help group whose members receive loan one after the other. The loan gets repaid in 20 weeks. Weekly repayment sessions are conducted with the help of reputed selfless volunteers where beneficiaries attend moral classes creating a profound impact on daily lives.

Alhamdulillah, with almighty's help our pilot project at Peenya, Bangalore is a huge success benefitting 55 families. Our sincere gratitude to all well-wishers whose contributions made it possible. Observing heavy requirement from slums WeCare is raising funds for its second phase, to extend services to 1000 families by 2020.

Donations given to WeCare would be recurring.

100% Repayment of loans during the pilot project shows your donations would be circulated among poorest of poor reaping you reward from almighty again and again.

Come forward and be a part of this social transformation.

Opportunity to bring in

Opportunity to bring in
social transformation...

Here is a Golden opportunity to transform lives through Interest Free Microfinance

- Primarily to promote income-generation activities
- To help the poor who are unable to access credit, or get it at unfair terms
- To root out usurious lending to the poor

Housing

- A large percentage of People live in rented accommodation
- There is a strong feeling of discrimination in the housing market

Can we do something about it ?

Bring in Social Transformation

- So that People Live a Life of Dignity
- Work Towards building an equitable society
- Help Economically Weaker Sections with income generation opportunities
